

I believe that these are all of our agenda items

1. UCO Workgroup - Mark Dravillas' group, forming the Work Group to establish the standards (prior to the business owners/developer's group to provide input - according to Mark's PowerPoint that I sent out after our last meeting).
2. Transportation Division - to be a part of the UCO process - what they can contribute
3. Neighborhood Pride - What it is, and why were we selected to participate (FYI - this will be a big advantage to our group is someone can volunteer to head up this effort from our AC - from my experience in Clintonville!)
4. 2012 Bi-Centennial Commission - Valerie is volunteering to work in this capacity :)
5. Business cards/Web site discussion -
 1. Update on progress from Bruce & RJ (Send RJ anything that you have that should be posted)
 2. Discussion to what we want to include on the biz cards - so far Andy and I have thought:
 1. Our name, Mail Box & Services address, Web address, Yahoo Groups location, and group e-mail -- need to have a discussion on the group e-mail address/this depends on the hosting/which depends on the budget approval
6. Budget update from Valerie as it relates to the business cards, the Web hosting - mileage, etc. And, request for numbers from the group for supplies for next year that would be useful (digital camera, scanner for the Web site?, Web hosting, business cards, 500 newsletters a month, stamps?, letterhead, classes on zoning, etc.)
7. Update on the Area Commission Work Group - Going before City Council Wednesday (the day after our meeting), in order to answer questions about our proposals - which are in consideration... including digital storage of documentation (if we have a scanner), increased budget, legislation about controlling signage as a part of the BZA/AC process... that I proposed.
8. The two developers - One (the condo) is up for a vote - and the other (the Pizza shop for 5th Avenue) which is going to present to the group and then we'll have a month to review the proposal
9. Our elections - for the Secretary, Commissioner-at-large, Co-Chair positions with speeches
10. And, on the agenda for next month - the Urban Planners from OSU to make a presentation about what they could see our area doing long term....
